Customer Google Reviews

I must say, we were a little skeptical about training an 8 week puppy because we weren't sure if it was worth it. I was so glad our breeder recommend DTE Charlotte! They were absolutely amazing and loved the communication and the daily updates! It made the transition of bringing a brand new puppy home much easier. I would 1000% recommend them to friends and family.

This company is amazing! And idk what I would have done without them. My breeder recommended me to them and it's definitely worth every penny especially with a new puppy that wasn't crate trained. It's amazing to see how much my puppy learned in one week and how he can sleep in his crate now peacefully. You can tell how much they love this job and how dedicated they are. I also love that even after the fact my puppy completed his puppy training if I have questions or concerns they are real quick to response and help. Definitely recommended!! You won't regret it. Hands down best company out there.

The staff at Dog Training Elite was amazing. They truly understand dogs and tailor training to your dog's individual needs. Our puppy wouldn't stop biting, no matter what we did and was quickly becoming more aggressive. After puppy camp at Dog Training Elite I can honestly say it's not a problem any more. Now and then she will forget, but now we know how to correct her and she responds positively. She also got started with the basic commands of sit, down and come. I highly recommend Dog Training Elite. We look forward to Obedience Training which will start in about a month.

The Last Dog Trainer You Will Ever Need!
